June 2010 - Energy Addition

Do you know about Energy Deregulation?

By request of many of our clients, we've been researching energy savings. Until recently one company provided three components of energy service: generation, transmission, and distribution. Now in 14 states including: PA, CA, TX, DE, NJ, NY you can choose your own transmission company and save money.

Current Projects and What's New at

4TelecomHelp

* We are project managing a large retailer's transition from ISDN backup to broadband.

* We started a full service offering of TEM, MACD work, wireless procurement and management, and bill pay for a Pipeline company.

* We are installing a new TEM platform for a large retailer.

* We are project managing the installation of a new hosted VOIP phone system for a large call center client.

**Bottom Line -
we can save
you money**

Preferred Partner of the Month:

GLACIAL ENERGY

There are more than
229 million wireless
subscribers in
America

Glacial Energy is a national electricity and natural gas transmission provider that offers current market rates for energy to its customers. For most companies their savings average 15% per month. We find this opportunity exciting because it reduces our customers bottom line with easy enrollment, no switching fees, no installation, and flexible terms. For more information:
